NAVAL BASE  
NORFOLK, VIRGINIA 23511-6002

IN REPLY REFER TO:

5090  
Ser N42/086  
JAN 14 1991

From: Commander, Naval Base, Norfolk  
To: Commanding Officer, Naval Station, Norfolk

Subj: INSTALLATION RESTORATION PROGRAM WORK PLANS

Encl: (1) Camp Allen Landfill Area A Draft Work Plan for Remedial Investigation/Feasibility Study (RI/FS)  
(2) Camp Allen Landfill Area A Sampling and Analysis Plan for RI  
(3) Camp Allen Landfill Area B Work Plan for RI/FS  
(4) Camp Allen Landfill Area B Sampling and Analysis Plan for RI  
(5) Transformer Storage Area Draft Work Plan for RI/FS  
(6) Transformer Storage Area Draft Sampling and Analysis Plan for RI  
(7) CD Area Landfill Draft Site Investigation and Risk Assessment

1. Enclosures (1) - (7) are draft reports which were recently received from Atlantic Division, Naval Facilities Engineering Command (LANTNAVFACENGCOM). They are provided to give you an overview of Installation Restoration (IR) FY-91 work planned at the three IR sites located on Naval Station, Norfolk: Camp Allen Landfill, Former Polychlorinated Biphenyl (PCB) Transformer Storage Area near Building P-71 and the CD Area Landfill. Work at the Camp Allen Landfill and Transformer Storage Area is scheduled to commence 22 January 91. Work is scheduled to be conducted February 1991 at the CD Area Landfill.

2. Commander, Naval Base, Norfolk will host a Technical Review Committee (TRC) meeting on 18 January 1991 to solicit technical comments from U.S. Environmental Protection Agency, Virginia, and City of Norfolk officials on work plans for several IR sites on the Naval Base Complex. The plans for the these three areas will be discussed at this meeting. Representatives from your staff are welcome to attend the TRC rehearsal meeting at 1030 a.m. on 17 January 1991 at the Breezy Point Officer's Club; however, so as not to overwhelm the TRC members, attendance of the actual TRC meeting will be restricted to Commander, Naval Base, Norfolk and LANTNAVFACENGCOM personnel only.

3. We are available to brief you and your staff on the contents of the plans and IR Program in general at your convenience. Point of contact for additional information or to schedule briefings is Ms. Sharon Waligora at 444-3009.

Sincerely,

*Cherryl F. Barnett*

CHERRYL F. BARNETT  
Director, Environmental Programs  
By direction of the Commander
